General Department Rules

Teaching Assistantships (TA-ship credits)

- A TA-ship can hold 0 or 2 credits based on the student's semester credit limit and requirements.
- The 2 credits from a TA-ship can either count towards a PA minor/interdisciplinary major OR towards internship credits as per the Internship Policy.
- The 2 credits cannot be counted twice towards both the minor/ID major and internship credits.
- A maximum of 2 TA-ships ($2+2 = 4$ credits) can count towards a PA minor/ID major.

On Cross Listed Courses

- Students are allowed up to **2 cross listed courses** for the completion of the **minor**, **1 cross list** in the case of a **concentration**, and **8** in the case of an **ENGPA interdisciplinary major**.
- In the case of **ID majors**, a **cross-listed course can only count towards one of the departments**, not both. For eg. A course offered by a department XX is cross listed with ENG and PA, ie. XX/ENG/PA. The credentials for this course can only count towards the requirements of either PA or ENG.
- In the case of an **ENGPA interdisciplinary major**, aside from the two mandatory cross-listed courses, if the parent department (from the ID major) offering the course, is cross-listed with the corresponding department of the ID major, ie. ENG/PA or PA/ENG, the credentials can only count towards the requirements of the parent department, ie. ENG or PA respectively.
- Overall, if **Department A** of any cross-listed course is your **major** and **Department B** is your **Performing Arts minor/concentration**, the cross list will count towards the degree credential requirements of **both departments**.
- However, one cross listed course **only counts for 4 credits towards overall degree requirements** (separate from MM requirements), and therefore you will have to ensure you **take enough overall credits outside of your major/minor/concentrations**. Thus, the purpose of cross lists is to allow you to explore more courses at Ashoka, other than your chosen disciplines.
- For a course to be cross listed, the **approval of the HoDs of both departments** is required.
